DETAILED ACTION

In view of the applicant argument on the withdrawn claims and the amendment filed on 1/18/06, claims 7-28 and 31-34 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 6/14/05 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest a method of operating a memory device comprising the steps of communicating between the memory device and a logic device using a local bus having at least one nominally buffered signal line (claims 7 and 23); wherein a system bus having a length that is at least an order of magnitude greater

Art Unit: 2824

than a length of the local bus, and the system bus has a bit width that is less than a bit width of the local bus (claims 17 and 31).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
